SUMMARY

Determined Front-end Web Developer with self-taught project building experience, specialized in the latest React JS Web App creating methods. Willing to cooperate in a team in order to make the next Web solutions. Ready to employ other web frameworks/libraries for better User Experience. Great communication skills.

EXPERIENCE

Developer
Self-taught project development   **01.12.2020 - present, Daugavpils**

· Created user-friendly movie search app applying external Movie database API and React router.
· Developed a Front-end part of a webshop by implementing React hooks and using a locally based JSON file for product information.
· Designed a tourism page based on Bootstrap library.
· Improved web pages with HTML CSS and Vanilla JavaScript in order to make them responsive.
· Used the Firebase platform allowing to store user-provided information in the partially complete Twitter clone. Integrated styled-components to enable a switch between light and dark mode.
· Deployed websites to a hosting server and connected them with a domain name. Some experience with WordPress.

Task Manager
SIA Latvija Bio   **01.06.2015 - present, Daugavpils**

· Organized and observed tasks in a multilingual team.
· Recorded work results with Microsoft Excel and eAgronom internet platform. Maintained companies database.
· Contributed to improve labor time efficiency and communication between coworkers.
